

Dear Agency Partners,

At TypTap, the health and well-being of our agencies, policyholders, and communities is our top priority. Because of this, we are launching an effort designed to help our agent partners through the challenging economic environment caused by the COVID-19 crisis.

As part of this plan **TypTap is offering agencies the option of receiving advanced commission* in addition to your upcoming March commission.** We believe this advance will help with any immediate cash flow needs.

If you decide to participate, all commission statements and payments will be reconciled and trued up at the end of May 2020 based on your agency production in April and May of 2020.

*(*Up to 2 months and based on your March TypTap commission payment)*

Please enroll by emailing Marketing@typtap.com before April 1, 2020. We will contact you to discuss details.

“A core value of ours is fairness, which is why it’s important for us to help our agents through these unprecedented and challenging times.

As a technology-driven company, we are well equipped to continue serving our customers’ insurance needs, which is why they should feel safe knowing TypTap has their back.”

Kevin Mitchell
President, TypTap Insurance

TypTap Territory Managers
